## Accessible toilet lock

The **JEFLOCK** Accessible toilet lock is designed especially to comply with new legislation Part M, DDA & BS8300.

The accessible toilet lock operates from the outside with a lever handle to release the roller latch bolt & has a red & white indicator release, in an emergency the coin release can be turned to release the dead bolt. The outside operation is no different to any other bathroom lock & does not require instructions.

The inside lever handle presses down to release the latch bolt & lifts up to throw the dead bolt as illustrated this is an unusual feature & therefore has a sign to read **lift handle to lock**+this message is repeated in Braille.

The unique **JEFLOCK** Accessible toilet lock comes in a complete set. Available in Normbau - Black 16, White 19, Dark Grey 18 & Manhattan 67.

Metal finishes - Satin stainless steel, Polished stainless steel, Polished brass, Satin brass & IBMA are also available.

RAL colours Matt Black RAL 9005, Dark Blue RAL 5003 are now in stock but limited sets.

[We can powder coat to any RAL number, please note, there is a paint set up charge for up to 4 sets.]
